

Advice that counts.

Position Title: **Tax Internship**

Are you ready to jump start your career with an internship at Hancock/Dana? Our interns gain access to a range of resources that help them perform at the highest level – including the latest technology, research materials, and a wonderful training program. At H/D, we value hard work but also fun – things like holiday parties, golf outings, happy hours, and food trucks. We also encourage our staff to pursue volunteer opportunities and charitable causes they're passionate about.

What You Will Do:

- Gain experience in the preparation of tax returns – individual returns primarily, but you'll gain exposure to other types of returns as well - your friends may even consider you an expert. No prior tax knowledge is needed as we'll provide lots of training, but a spirit of proactive learning and curiosity goes a long way.
- Work and collaborate with other staff, managers, and partners.
- Receive lots of feedback, allowing you to learn from and elevate your work product.
- Manage your schedule and deadlines.
- Gain exposure to a variety of accounting software programs and Microsoft Office programs.
- Work directly with our clients in a variety of interactive ways.

Our internships begin in early December with students expected to work 24 hours per week (through mid-April).

Summer and fall work schedules are flexible and can vary, but typically range from 18-20 hours per week.

Consideration is given to internship renewal for select candidates.

Hancock/Dana is a certified public accounting and business consulting firm based in Omaha, Nebraska. We're an accounting firm that places partnership above all else. Access a wealth of experts. Gain an entire team of caring, forward-thinking professionals. Pursue bigger dreams with greater confidence. It all begins here, with Advice that Counts.
